Family passion with global ambitions.

For us, fishing and farming isn't just a job or a business, it's who we are. It's an undying family passion that started six generations ago when our grandparents fished the Bay of Fundy and has ended up connecting us to local fishers and farmers all over the world.

While times have changed, our commitment hasn't. Like our relatives, we're obsessed with finding better and smarter ways to bring you the very best seafood in the world.

This entrepreneurial spirit, the hard work of our people, and our commitment to sustainability, is what has propelled us to keep making bold moves and casting wide nets.

What began in 1985 as a humble family aquaculture company with a single marine

site has grown into a global seafood leader with fully-integrated facilities, product lines, and distribution networks. We are focused on growing our business and always evolving to serve our customers.

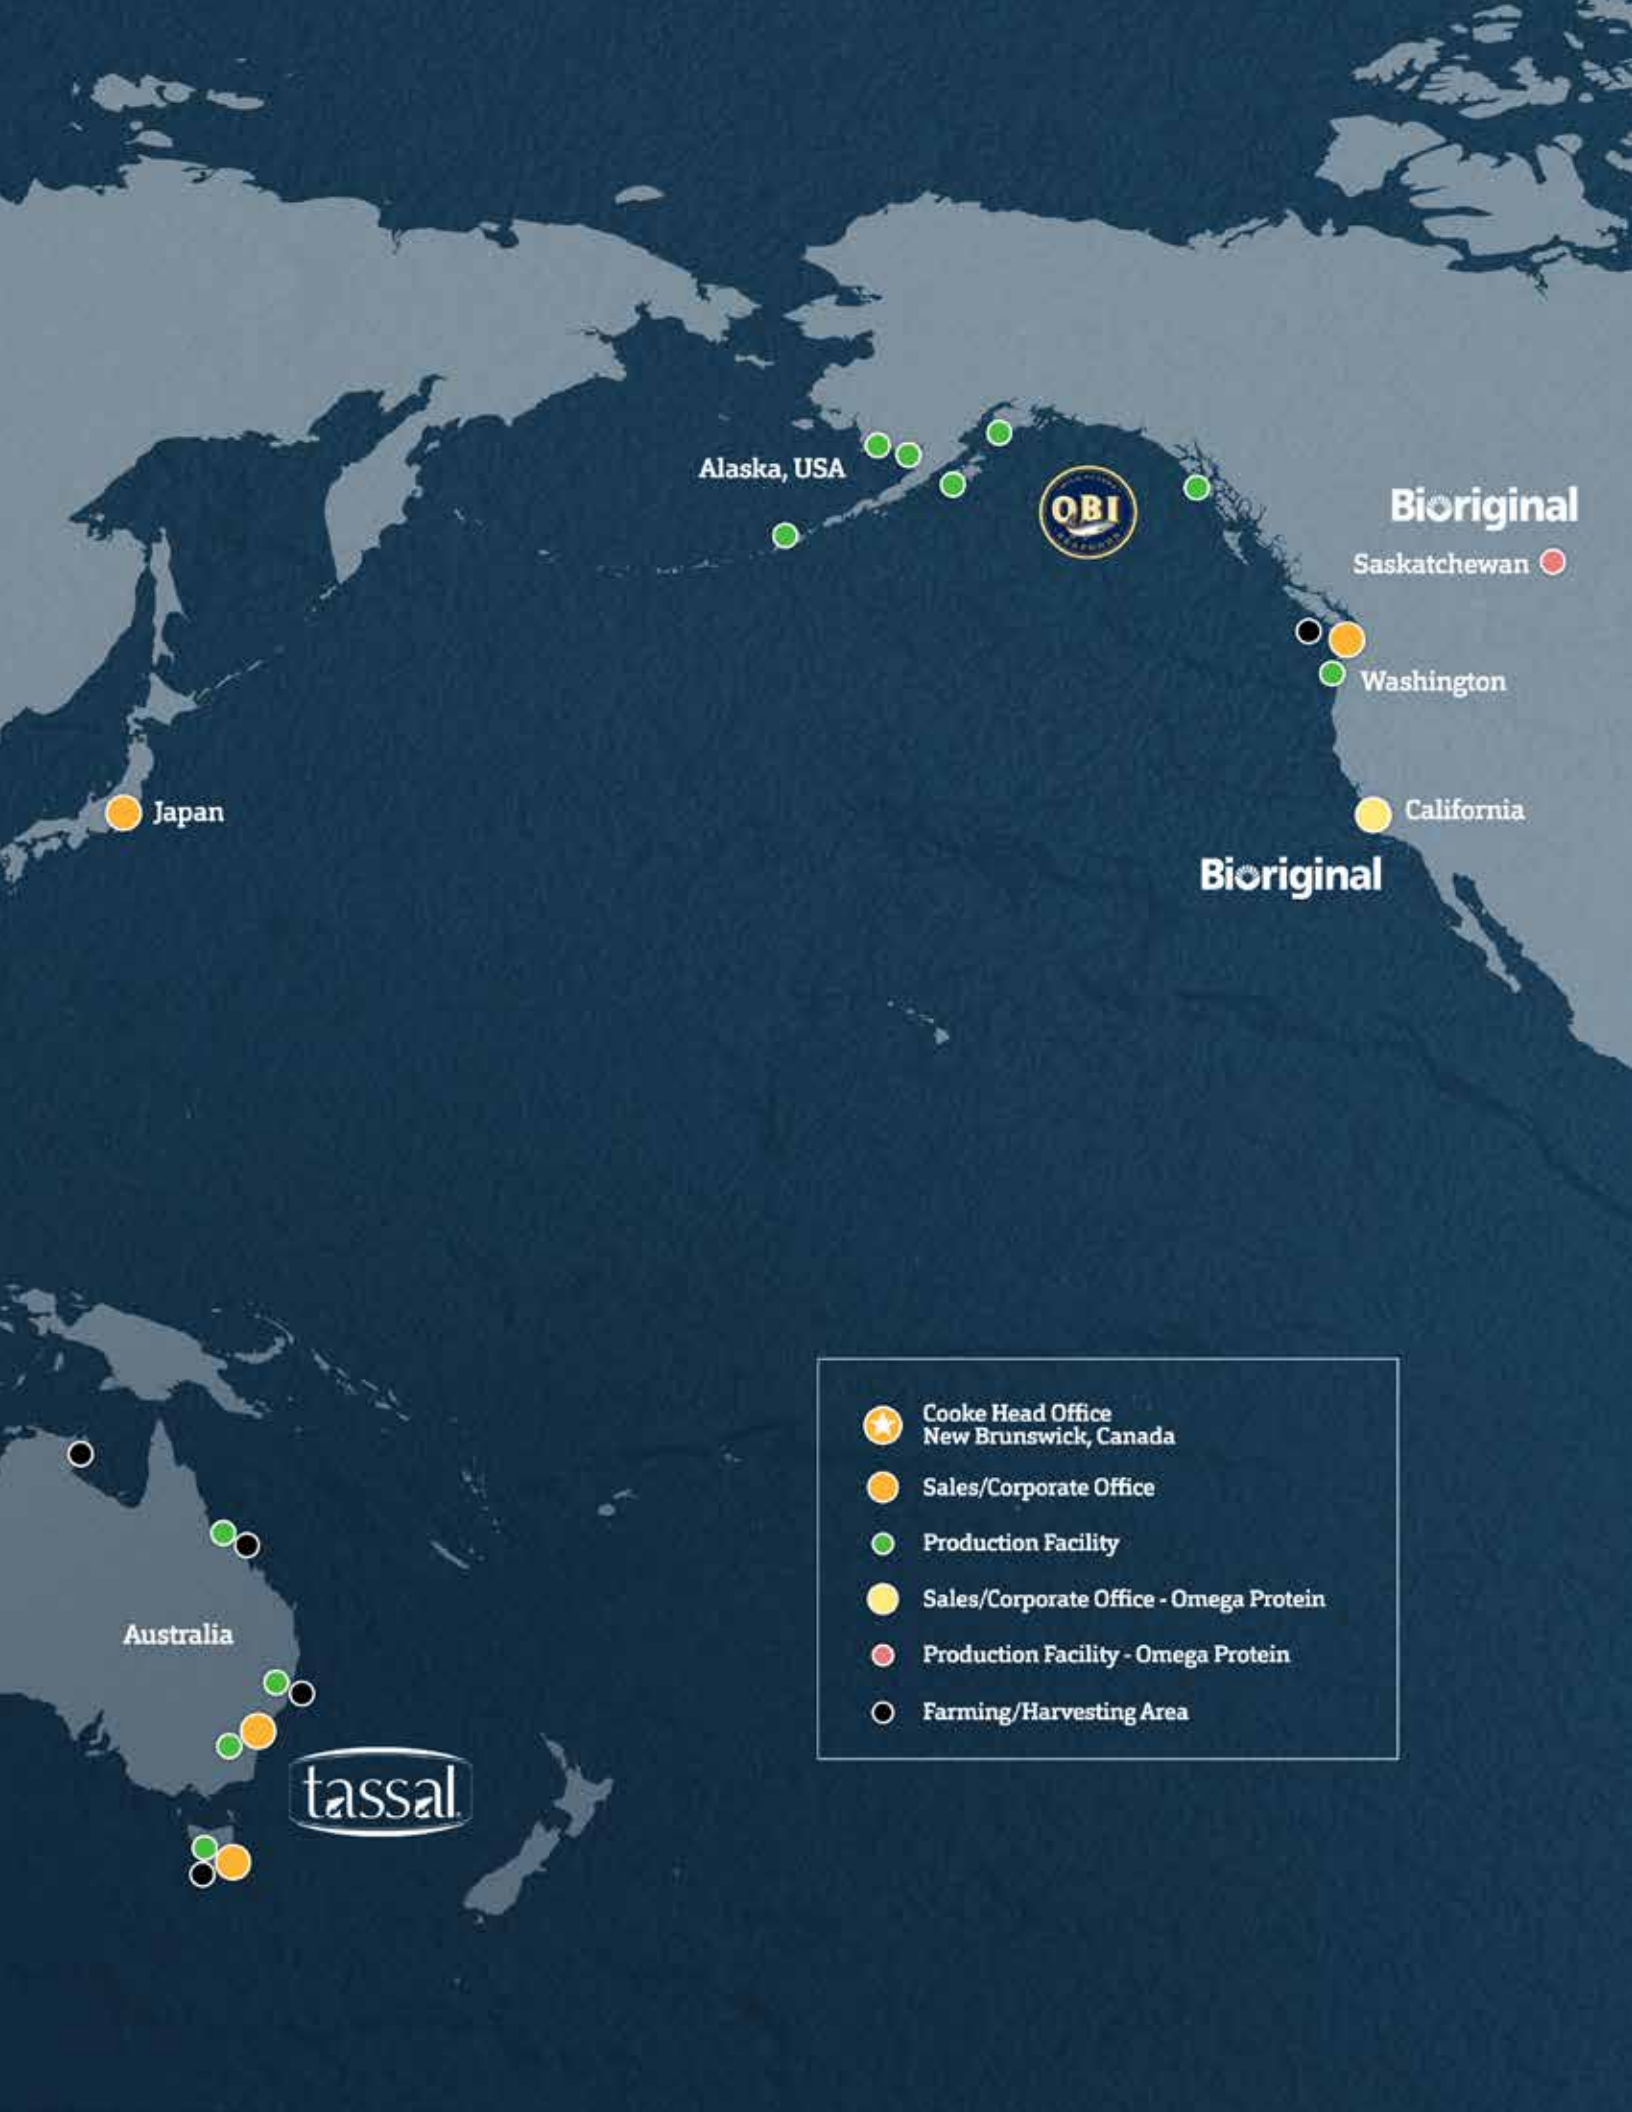

With acquisitions of Wanchese Fish Company, Cooke Uruguay, Omega Protein, Seajoy Seafood Corporation Group, Morubel, and Tassal Group, we have expanded into wild fisheries and further diversified our product offerings.

As for how we do it all, it's quite simple: when we cultivate the ocean with care, it allows us to nourish the world, provide for our families, and create stronger communities. We are committed to the pursuit of excellence, and we believe you can taste the difference.

CULTIVATE. NOURISH. PROVIDE.

MARKETING SUPPORT

We deliver the freshest seafood to your doorstep. Then we help do the same with customers.

Need help getting the word out about your new menu items or educating customers on the health benefits of our seafood? We'd be happy to work closely with you to create a custom marketing program that helps you achieve your sales goals. When you're looking for food photography, custom packaging, digital support, and more, we're ready to do what it takes to drive customers to your door.

Our marketing support includes:

IN-STORE POS MATERIALS

- Custom support provided dependent on your market needs

DIGITAL SUPPORT

- Targeted ads
- Social media content development
- Digital POS development

PHOTOGRAPHY/VIDEOGRAPHY

- Custom video and photo content
- Recipe development

PACKAGING & BRANDING

- Private label packaging and branding development and launch

Cooke

A WORLD OF SALMON, WITHIN REACH!

The best kept secret for global success? We live and work around the world, but hold fast to a local mindset; the focus is simply producing delicious, fresh salmon, day in and day out, for those around us. We care for our communities – and the ripple effect reaches around the world. Cooke proudly operates and harvests fresh Atlantic Salmon from the following countries:

Canada, United States, Chile, Scotland, and Australia

Global supply

Coming from Canada, the United States, Chile, Scotland, and Australia, we have the unique ability to leverage a global supply of Atlantic salmon to meet customer needs.

Proximity to markets

To ensure the freshest Atlantic Salmon, delivered in a timely manner, we strategically utilize our global footprint to service many markets and major cities on every continent. With supply coming from many different countries, we can determine which market makes sense for your order and deliver our best.

SOCKEYE SALMON – A.K.A. RED SALMON. PUT YOUR TASTE BUDS ON RED ALERT.

Why? Because you – and your taste buds – are going to love our Sockeye salmon. Harvested straight from the cold, pristine waters of Alaska, our wild-caught Sockeye retains its firm, flaky texture and vibrant colouring throughout cooking and adds visual appeal to any dish.

COHOLD YOUR HORSES, BECAUSE THIS SALMON IS SERIOUSLY GOOD.

Coho salmon is considered by many to be the tastiest of all salmon species. In fact, foodies rave about its delicate flavor, rich, firm flesh, and the way that Coho is ideally suited to just about any cooking technique – especially smoking.

WHY IS OUR PINK SALMON SO GOOD? IT'S A WILD STORY.

Wild-caught and harvested straight from the cold, pristine waters of Alaska, our pink salmon is sustainably sourced, fully traceable and great for healthier lifestyles. Pink salmon has a tender texture, mild flavour and rosy pink coloring that's perfect for baking, broiling, and poaching.

SMOKED SALMON

Cold Smoked Atlantic Salmon

Hot Smoked Atlantic Salmon

IT'S TIME TO GIVE YOUR CUSTOMERS A LITTLE SLICE OF HEAVEN.

Your customers may never be able to sleep in again. Fresh, sustainably-raised salmon is naturally dry-cured, then expertly smoked to create a luxuriously flavored, silk textured smoked salmon that transforms everything from simple breakfast bagels to leisurely brunches into unforgettable meals.

IF FISH WERE CARS, SABLEFISH WOULD BE A PRIVATE JET.

Exaggeration? Not in the slightest. Sablefish is harvested in the Central Gulf of Alaska and Southeast Alaska, and is commonly found on high-end restaurant menus because of its rich and intensely buttery texture. Although considered an oily fish, Sablefish is full of the good kind of fat – lots of heart-healthy Omega-3 content. The result? A silky smooth texture perfect for smoking, baking, grilling, sautéing – and most importantly, a luxurious dining experience.

A FISH TO FEEL GOOD ABOUT

Known for its mild flavor and unique firm texture, Halibut is a favorite of anyone from world class chefs to those preparing meals at home. Pure, sustainable, with a sweet delicate taste and snow white flesh, once you have one bite - you'll crave it for a lifetime.

AUTHENTICALLY SPANISH.

Our sea sites span the South Eastern coast of Spain, where the natural sea currents bring in a constant supply of fresh, cold clean waters that keep the ocean temperature in the perfect range for growing healthy fish. Our products are grown in a natural environment and are harvested with care to guarantee a rich and smooth flavour.

RED SHRIMP. COLOURFUL FLAVOUR.

Offer your customers something truly extraordinary: Wild-caught Argentine Red Shrimp, harvested in the Southwest Atlantic Ocean, off the shores of Argentina. Our shrimp are caught in season and processed at a local state-of-the-art facility to ensure premium quality. Your customers will love the vibrant colour, firm texture, and slight sweet taste that this unique product delivers. Often compared to lobster, Argentine Red Shrimp are well suited for many cooking techniques.

CERTIFICATIONS

WE'RE PROUD TO OFFER PRODUCTS THAT MEET THE FOLLOWING CERTIFICATIONS:

ASC

The Aquaculture Stewardship Council is an independent, international non-profit organization that manages the world's leading certification and labeling program for responsible aquaculture. For more information on ASC, visit www.asc-aqua.org.

BAP

The Best Aquaculture Practices (BAP) program is an international certification program based on achievable, science-based and continuously improved standards for the entire farmed seafood production chain – including the processing plant, farm, hatchery and feed mill. BAP standards are the world's most comprehensive for farmed seafood, covering environmental responsibility, social accountability, food safety and animal welfare. BAP uses third-party auditors that evaluate compliance with BAP standards developed by the Global Aquaculture Alliance. For more information, visit www.bapcertification.org.

Food Safety

CERTIFICATED

BRCGS Global Standards

BRCGS is a leading brand and consumer protection organization, used by over 28,000 certificated suppliers over 130 countries, with certification issued through a global network of accredited certification bodies. BRCGS' Standards guarantee the standardisation of quality, safety and operational criteria and ensure that manufacturers fulfil their legal obligations and provide protection for the end consumer. Certification to BRCGS' Standards is now often a fundamental requirement of leading retailers, manufacturers and food service organization. For more information, please visit www.brcgs.com.

MSC

The Marine Stewardship Council (MSC) is an international non-profit organization established to address the problem of unsustainable fishing and safeguard seafood supplies for the future generations. It operates the most globally recognized, science-based certification and ecolabeling program for wild-caught seafood. Fish and seafood with the MSC blue fish label has been responsibly caught by a certified sustainable fishery and is traceable to the source. For more information, visit www.msc.org.

RFM

The Alaska Responsible Fisheries Management (RFM) Program is an ISO accredited, third-party fisheries certification program. It is a comprehensive certification program founded on the strongest and most widely acknowledged international standards and practices. Based on United Nations Food and Agriculture Organization (FAO) criteria, RFM offers seafood buyers and sellers a credible, cost effective choice in seafood certification. For more information visit www.alaskaseafood.org/rfm-certification.

IFS

International Featured Standards are uniform food, product, and service standards. They ensure that IFS-certified companies produce a product or provide a service that complies with customer specifications, while continually working on process improvements. For more information, visit www.ifs-certification.com.

Ocean Wise Recommended

Ocean Wise Seafood is a sustainable seafood program of Ocean Wise, a global ocean conservation organization. With two classification categories – Ocean Wise Recommended or Not Recommended - the program helps to ensure that ocean life will be abundant for generations to come. Classifications are routinely updated based on the latest scientific information. As partners, we make the commitment to clearly label all Ocean Wise Seafood products so consumers can make sustainable choices and fight overfishing. For more information visit www.seafood.ocean.org.

Canadian Organic Regime

The Canadian Organic Regime (COR) is a federally managed program under the Canadian Food Inspection Agency (CFIA) Safe Food for Canadians Act (SFCA). Initially developed for terrestrial species, the program was expanded to include organic aquaculture and covers all stages of production, including processing and labelling.

Naturland

Naturland is the certification standards in Organic Agriculture guaranteeing the protection of the environment. For producers, processors and consumers, certifications by Naturland stands for a reliable quality management system, for the dependability of the organically grown produce, from it's cultivation to the finished product. Naturland has been accredited to the international norm ISO/IEC 17065 since 1998. This accreditation confirms that certification is performed to defined norms. For more information visit www.naturland.de/en.

Soil Association Organic

The Soil Association is the UK's leading membership charity campaigning for healthy, humane, and sustainable food, farming, and land use. Their organic standards are the most widely used, recognized, and trusted organic standards in the UK and they have a strong international reputation. For more information, visit www.soilassociation.org.

Kosher

The word kosher means proper or acceptable. For a product to be kosher certified, each ingredient, food additive and processing aid used in its production must comply with the dietary guidelines set forth in Jewish law. For more information, visit www.oukosher.org.

Global G.A.P.

The GLOBAL G.A.P. Aquaculture Standard sets strict criteria for legal compliance, food safety, workers' occupational health, safety, and welfare, animal welfare, as well as environmental and ecological care. The Standard covers the entire production chain from feed to fork. For more information, visit www.globalgap.org.

Label Rouge

A prestigious quality mark granted by the French Ministry of Agriculture to products demonstrating superior quality and taste. For more information, visit www.labelrouge.fr and saumoneccossais.com.

Friend of the Sea

Friend of the Sea is an international certification scheme for products from sustainable fisheries and aquaculture. It also supports projects of preservation and protection of the environment and marine habitats. Find more at www.friendofthesea.org

ISO 14001

Today's society has a high sensitivity to environmental issues. Environmentally-conscious customers prefer to do business with companies that share the same values. Implementing an Environmental Management System is the first step to satisfy the demands of society. For more information, visit www.bureauveritas.es/services+sheet/certificacion+iso+14001

ISO 45001

Occupational Health and Safety is one of the basic elements of business management. This standard guarantees best practices in the entire chain. For more information, visit: www.bureauveritasformacion.com/nueva-norma-ISO-45001-2017-sistema-de-gestion-de-la-seguridad-y-la-salud-en-el-trabajo-2007.aspx

EU Organic

Established in 2010, the "EU Organic" label is a European label that is mandatory for all organic packaged products in Europe. It is only applicable to food products and guarantees that production takes place according to the strict rules of organic farming, processing and sales. Consumers everywhere in Europe can use this label to recognize organic products. The label is anchored in European legislation and is managed by the European Commission. The control is carried out by independent control organizations in the member states themselves.
